HEALTH & FITNESS

Today's Date: _____

HEALTH SCREEN, MEDICAL PROFILE AND EXERCISE HISTORY FORM

In order to help design a personal health program appropriate to your needs, we must obtain necessary information about your current state of health. For most people, physical activity does not pose a problem, though for some individuals, certain types of activity may be inappropriate or dangerous. In some cases, medical clearance and/or clarification from a physician may be needed before an exercise program can be designed.
